P R O F I L E

D.O.B: 31/01/2000

- To gain knowledge, improve my skills, and do the best I can with the skills I achieve.
- Passionate about the work, with a flair for design and a commitment to delivering quality work. Known for going the extra mile. Proficient in HTML and CSS for captivating web page design.

P R O J E C T S

GLS FCAIT website (Mini Project)   2023-current

- Django, Python, HTML, CSS, JavaScript, SQL Lite
- Team Size:5
- In this project the task is to create the entire website for GLS FCAIT Department with admin for dynamic page creation and content management of the website
- We are currently working on this project, In this project **my main role is to deal with full frontend part of the project both main site and the admin Panel.**
- **Secondary role was to find solutions where the team gets stuck or needs helping hand**

Chatbot for GLS FCAIT (Summer Project)   3/2023 - 4/2023

- Flask framework, Python, HTML, CSS, MySQL
- Team Size:5
- Made Chatbot using Python in Flask, for ease of interaction between students and the admission office.
- The aim was to create a chatbot that can answer admission related query from students/users.
- In this project, while there were no specific tasks assigned, the team collectively worked on various smaller components. I also actively contributed to the frontend development including login, registration, and admin panel features, among other responsibilities.

Blood Bank Management System(BCA Project)   2021-2021

- HTML, CSS, MySQL, PHP
- Team Size:2
- As a team of 2, we divided the work into the frontend part and data fetching part from the database.
- **My role was to manage the frontend part.**
